

FMT Single Patient Use blood pressure cuffs were designed to reduce the spread of infection through cross-contamination. FMT offers a complete line of single patient use NIBP cuffs from Large Adult size to Neonatal small size. All cuffs are manufactured from a soft, durable, white TPU material which can be quickly and easily wiped clean. The cuff has been manufactured with rounded corners to minimize discomfort.

FMT #1 to #5 sizes Neonatal cuffs are supplied with a Luer slip connector. Standard male Luer connectors allow FMT neonatal blood pressure cuffs to be adapted to a wide range of most major monitor manufacturers. FMT #6 to #12 sizes cuffs are shipped without connector or with the plastic connectors attached that allow them to be used with virtually any NIBP monitor or sphygmomanometer. FMT #6 to #12 sizes Single Patient Use blood pressure cuffs are available with any of the following connectors in either one- or two-tube versions.

- ▶ Designed for single patient use to eliminate cross-contamination
- ▶ Durable hook-and-loop closure allows repeated repositioning for ease of use
- ▶ Extra soft and comfortable TPU material is durable and 100% latex-free.
- ▶ Wide range of sizes to accommodate all patients. Cuffs are available in 12 sizes.
- ▶ In Neonate sizes color coded printing on each cuff makes it easy to identify cuff size.
- ▶ Dual or single tube styles to suit the configuration of your blood pressure equipment.
- ▶ Range guide and index marking on the cuff help to determine the proper size cuff for the patient.
- ▶ Adapters available for any monitor on the market
- ▶ Cuffs have 20 cm tube/s
- ▶ Packaged 10 or 40 per case

FMT NeoCuff Single Patient Use Neonatal NIBP Cuffs – Single Tube

REF:	Size	Cuff Dimensions L x W (cm)	Cuff Range (cm)	Color
