▶ Silver Plated 12 pcs / set
FMT EEG001/S

▶ Golden Plated 12 pcs / set
FMT EEG001/G

The electrodes are stamped in 99.9% pure silver (Ag) or tin (Sn). Then the silver electrodes are kept as silver or covered with a heavy gold-plate or silver chlorided. The flexible wires are standard in multi color. The cables are tangle free. The cable length is 155cm. There are 12 electrodes in a set. The connector is a 1.5 mm Touch Proof (DIN 42 802) plug. The connection of the cup electrode and wire is covered by plastic material that provides high isolation from the environment and avoids contact with gel.
