

The dependable construction and innovative design of the tourniquet cuffs make them a great choice for any procedure requiring a bloodless field. Cuffs are strong, yet still comfortable thanks to their soft surface material, which helps minimize cuff creasing. The soft, flexible hose helps reducing stress at the hose-to-cuff connection. Cuffs come in a variety of sizes and configurations and are color coded for quick identification of size.

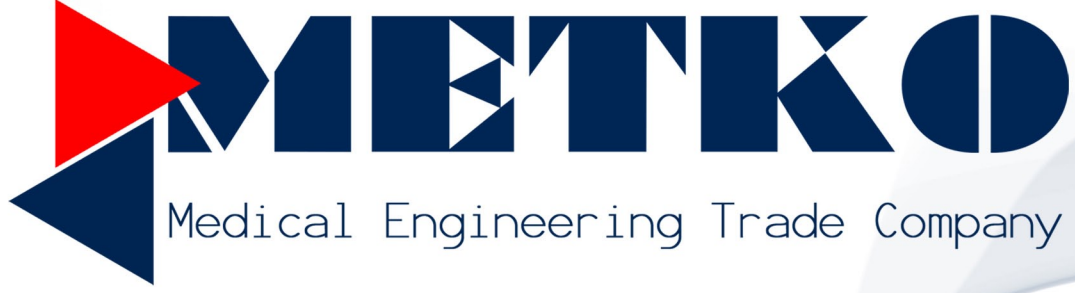

- ▶ Four sizes designed to upper limbs and lower limbs of adult and pediatric patients.
- ▶ Designed to complement regular adult and pediatric tourniquet sizes and designs.
- ▶ Proven performance in surgery.
- ▶ Wide range of available locking connectors that provide compatibility with most of the tourniquet systems in the market and prevent accidental disconnection.
- ▶ Latex free

Advantages:

- Highest patient and end-user safety
- Prevention of skin blisters, nerve and muscle damage
- Long life time

	TC-TPU/11	SINGLE TUBE, TPU BLADDER	5 x 40 cm (1.96" x 15.74")
